

CABLE RUNWAY

Pathway Solutions to Manage and Protect Cables

APPLICATIONS:

DATA CENTERS / TELECOMMUNICATION ROOMS / EQUIPMENT ROOMS

FEATURES:

- HIGH QUALITY TUBULAR STEEL CONSTRUCTION
- INDIVIDUALLY BOXED FOR EASY SHIPMENT AND ADDED PROTECTION
- PROMOTES PROPER CABLE BEND RADIUS
- 1-1/2"H STRINGERS
- 12" RUNG SPACING
- VARIOUS WIDTH OPTIONS AVAILABLE
- COMPATIBLE WITH OTHER RUNWAY SYSTEMS

CABLE RUNWAY:

Provides support for cable runs. Remove paint to bond cable sections with splices or ground straps.

CABLE RUNWAY SUPPORTS:

Cable Runway can be attached to wall, floor, ceiling, and to top of racks and cabinets by using a number of different support options.

CABLE RUNWAY RADIUS DROPS

Radius drops are used to maintain a proper cable bend when cables enter or exit the runway system. Use for Center or Side Drops.

CABLE RUNWAY SPLICES:

Butt Splices or Junction Splices connect sections of runway together.

CABLE RUNWAY ELEVATION KIT:

Cable Runway may be elevated above racks or cabinets that allows a proper cable radius as it enters the rack
